PROFESSIONAL SUMMARY

Results-driven Software Engineer Intern with hands-on experience building production-grade REST APIs, containerized Applications. Proficient in Java, Tibco BW6, MuleSoft, Docker, and cloud-native development on AWS and. Strong foundation in backend system design, database optimization, and agile delivery. Seeking an entry-level role as a Backend, Cloud, or DevOps Engineer to contribute to high-performance engineering teams.

TECHNICAL SKILLS

Languages: Java, C++, JavaScript

Backend: REST APIs, Spring Boot (Fundamentals), JDBC, System Design

Integration: MuleSoft, TIBCO

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Databases: PostgreSQL, SQL

DevOps & Cloud: Docker, Kubernetes(Fundamentals), Jenkins, CI/CD, AWS

Tools: Git, GitHub, Postman, IntelliJ IDEA

EXPERIENCE

Software Engineer Intern | Bahwan CyberTek

Jan 2026 – Present

- Designed and developed production REST APIs using Java and enterprise integration platforms MuleSoft and TIBCO, improving inter-service communication for enterprise clients.
- Managed backend data with PostgreSQL, performing query optimization and schema design for high-volume datasets.
- Containerized applications using Docker
- Built and maintained CI/CD pipelines with Jenkins, reducing manual deployment effort and improving release velocity.
- Collaborated in agile sprints to deliver enterprise-level solutions, participating in code reviews, daily stand-ups

PROJECTS

Airline Reservation System — Java, PostgreSQL, REST API, TIBCO

- Engineered a full backend system with modules for flight search, booking, seat selection, and passenger management using Java, TIBCO and PostgreSQL.
- Implemented concurrency handling for simultaneous booking requests, preventing race conditions and ensuring data integrity.
- Designed RESTful APIs with a focus on scalability and real-world usability; optimized database queries to reduce response times.

Connectify — React.js, Node.js, REST API

- Built a LinkedIn-inspired full-stack platform featuring a course dashboard, interactive coding practice interface, and learning calendar with route-based navigation.
- Developed modular, reusable React components integrated with a backend API; incorporated Framer Motion animations for polished UX.

Super-Resolution Model (AI) — Python, Real-ESRGAN, FSRCNN

- Implemented a teacher-student model architecture using Real-ESRGAN (teacher) and FSRCNN (student) for image super-resolution tasks.
- Trained and evaluated models on the GoPro Large dataset, achieving improved perceptual image quality metrics.

EDUCATION

B.Tech in Computer Science and Business Systems 8.65 CGPA

2022-2026

JSPM's Rajarshi Shahu College of Engineering, Pune

HSC (12th Grade) 85.67%

2021-2022

S.G.H.V. Junior College, Chinchwad, Pune

SSC (10th Grade) 95.20%

2019-2020

S.G.H.V. Junior College, Chinchwad, Pune

CERTIFICATIONS

- AWS Essential Training for Developers – LinkedIn Learning
- DevOps Professional Certificate – PagerDuty & LinkedIn Learning
- Cloud Computing Fundamentals – IBM SkillsBuild
- Oracle Java Foundations – LinkedIn Learning

ADDITIONAL

- Active DSA practitioner on LeetCode — consistent problem-solving across arrays, recursion, and system design topics
- Exposure to DevOps lifecycle
- Passionate about scalable backend architecture and cloud-native development
